SUMMARY

Front-End Developer with 5+ years of professional experience across enterprise application support and modern React/Next.js development. Strong expertise in JavaScript (ES6+), TypeScript, React, Next.js, HTML, CSS, and REST API integration. Experienced in debugging production issues, maintaining legacy frontend systems, and building responsive, performance-optimized user interfaces. Proven ability to collaborate in Agile environments and deliver production-ready applications.ngineering excellence.

TECHNICAL SKILLS

- **Frontend:** React, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, JSX
- **Styling & UI:** Tailwind CSS, Bootstrap, CSS-in-JS (Styled Components / Emotion), Sass
- **State Management:** React Hooks, Context API, Redux (Basic)
- **Testing & Optimization:** Jest, Playwright (Basic), Debugging, Performance Optimization
- **Tools & Platforms:** Git, GitHub, Jira, CI/CD Pipelines, Salesforce Marketing Cloud
- **Practices:** Responsive Design, REST API Integration, Cross-Browser Compatibility

WORK EXPERIENCE

Freelance Front-End Developer   **Jan 2025 - Present, Toronto, CA**

- Built and deployed frontend applications using React, Next.js, and TypeScript, focusing on reusable components and clean architecture.
- Implemented performance optimizations including lazy loading, code splitting, memoization, and server-side rendering (SSR).
- Integrated RESTful APIs, handled asynchronous data flows, and managed application state using React Hooks and Context API.
- Ensured responsive design and cross-browser compatibility across desktop and mobile devices.
- Translated UI/UX designs and wireframes into high-quality, reusable React components while maintaining visual consistency.
- Took ownership of feature development, debugging, testing, and deployment for client-style requirements.

Tata Consultancy Services

Systems Engineer – Frontend & Application Support   **Feb 2019 - Mar 2023, India**

- Provided application support and frontend maintenance for enterprise web applications, working primarily with JavaScript, HTML, and CSS.
- Fixed UI bugs, layout issues, and browser-specific rendering problems across Chrome, Firefox, Safari, and Edge.
- Delivered frontend enhancements and minor feature updates based on change requests and business requirements.
- Debugged production issues, performed root-cause analysis, and delivered fixes within defined SLA timelines.
- Collaborated with backend and QA teams to validate fixes and support smooth production deployments.
- Developed responsive HTML/CSS components following UI/UX best practices.
- Built and maintained HTML/CSS/AMPscript templates in Salesforce Marketing Cloud for automated campaigns.
- Conducted QA testing, A/B testing, and cross-browser validation, improving engagement metrics and reducing bounce rates.

PROJECTS   **www.ankushshoor.com** (Live Demos)

- **E-Commerce Shopping Website – Next.js, React**

 Product listing, filtering, cart functionality, User Auth, checkout and responsive UI using modern Next.js patterns

- **Movie Finder – React, TMDB API**

Search, filtering, REST API integration, responsive UI (Tailwind CSS)

- **AI Chatbot – React, TypeScript, Gemini API**

Chat UI with dynamic responses and component-based architecture

EDUCATION

Full Stack Software Development   **May 2023 – Dec 2024**
Lambton College, Toronto, Canada

Bachelor of Computer Applications   **May 2015 – Apr 2018**
DAV College, India
